

Additional Assets

Last Modified on 09/02/2022 8:50 am PDT

Beyond the assets in the editing interface, there are additional assets for Announcements and Events that are made for use. Because these assets are not available in the  tool, you can reference the specific parameters defined in this article or copy-and-paste into the editor as needed.

 **HEAD'S UP:** Due to the higher level of impact that these items have on university content, additional assets can only be accessed by Global Admin users. [Contact Us](#) for assistance.

Announcements

This asset type can be reused to show a list of announcements or updates for a department on a homepage. Additionally, the Announcements template type is used to show details that are linked from this asset.

cat_id=80

(Category number from News system)

limit=3

Limit number of posts

path='.urlencode('/research/ourcs/announcements.html')

Link to departments' Announcements template page

time_limit=30

How many days back to display

time_stamp=true

Show/hide timestamp of post under title

```
<?php
    $url_options = array(    'cat_id=80',    'time_stamp=true',    'time_limit=',    'limit=3',    'path='.urlencode('/research/ourcs/announcements.html')    );
    $url_string = implode('&',$url_options);
?>
<ul>    <?php echo file_get_contents('http://earth.callutheran.edu/utilities/news/updates.php?list&'.$url_string); ?>
</ul>
```

Events

This asset type displays a departments' upcoming events with a link to view details on a related Events template page.

cat_id=19

Events system category number

images=false

Show/hide thumbnail images of events

limit=4

Limit number of posts to display

no_events=true

Show/hide fallback message if no events are showing

root_path='.urlencode('/centers/cej/events/')'

Link to events template page

source=arts_events

Select calendar source: 'arts_events' or 'hub' or 'hub_series'

summary=false

Show/hide event summary

```
<?php $url_options = array( 'cat_id=19', 'source=arts_events', 'images=false', 'summary=false',  
'limit=4', 'no_events=true', 'root_path='.urlencode('/centers/cej/events/') );  
$url_string = implode('&',$url_options); echo file_get_contents('http://earth.callutheran.edu/utilities/calendar/ev  
ts-template.php?list&'.$url_string);  
>
```
